SUMMARY

Hii, I'm Abinash currently pursuing a Bachelor degree at BJB Autonomous College. With expertise in frontend web technologies I have developed and contributed to several project that showcase my technical acumen and creativity. I am driven by a passion for building dynamic, user-friendly web application and continuously improving my skills to tackle new challenges in the tech industry.

PROJECTS

Zomato Clone   **May 2025**

Tech stack - HTML,CSS,Javascript

Developed a Zomato clone using HTML, CSS, and JavaScript, replicating core features such as restaurant listings, search functionality, and responsive UI. Focused on user experience and clean, modern design to enhance frontend development skills. Implemented interactive elements for seamless navigation and real-time user engagement.

Weather Application   **Dec 2024**

Tech stack - HTML,CSS,Javascript

Created a weather app using HTML, CSS, and JavaScript with real-time data from the OpenWeather API. Designed a responsive dark-themed UI for a smooth and modern user experience.Integrated dynamic background images using the Unsplash API based on weather conditions.

Tic Tac Toe   **Nov 2024**

Tech stack - HTML,CSS,Javascript

Developed an interactive Tic Tac Toe game using HTML, CSS, and JavaScript, featuring responsive design and smooth gameplay. Focused on creating an intuitive user interface with basic game logic and score tracking for an engaging experience.
